# I

Slave moon. Storm-  
chained, stone-erosive  
force

squalling origin,  
corrupting story.

Briny servile  
particle laws  
sea-sawed

to rival indelible  
waves.

Cellular protein slurring  
through vegetal

crucibles to kluge  
the fluxed-up

sludge of consequence

constringed to human  
crescendo pouring

forth its quid pro quo.

## II

Moon's  
core coercion.

Pull and push  
cached together.  
Face. And face-aversion.

Conflictive terms  
synapsing their tension's  
insistent tryst.

Luminescent truce  
seduced by unison's witchcraft.

### III

Dim unsolved  
uncivil gleam

clouding a telescopic  
chrysalis, splitting  
a djinn into birth,  
miraging

power into us.

Sudden  
atmosphere of pure  
erasure!

Now moon-promise  
promiscuously  
unmoors the mind.

## IV

Moon's infusion in mind's

encryption: a fluid  
luminous circuitry

of languaged wattage

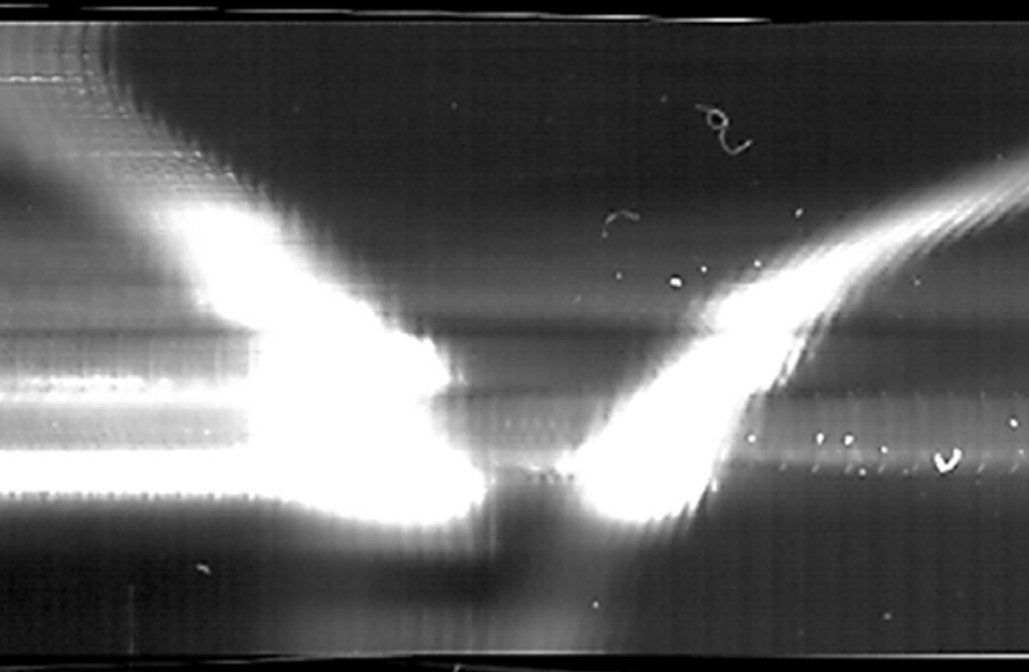

tapped not yet  
nor gnostic-tested.

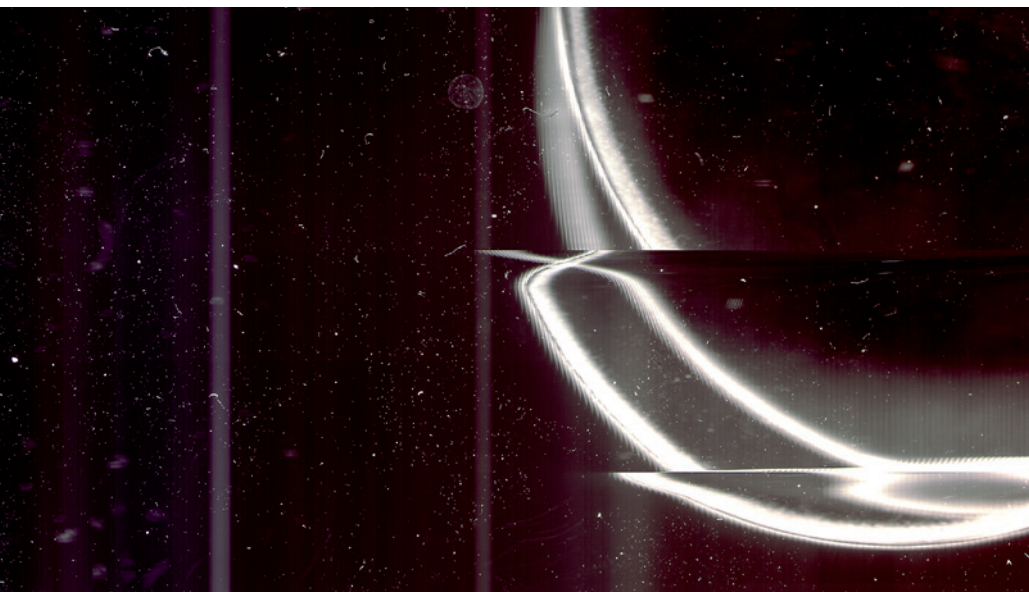

V

Connective but unattached,  
moon's subliminal path

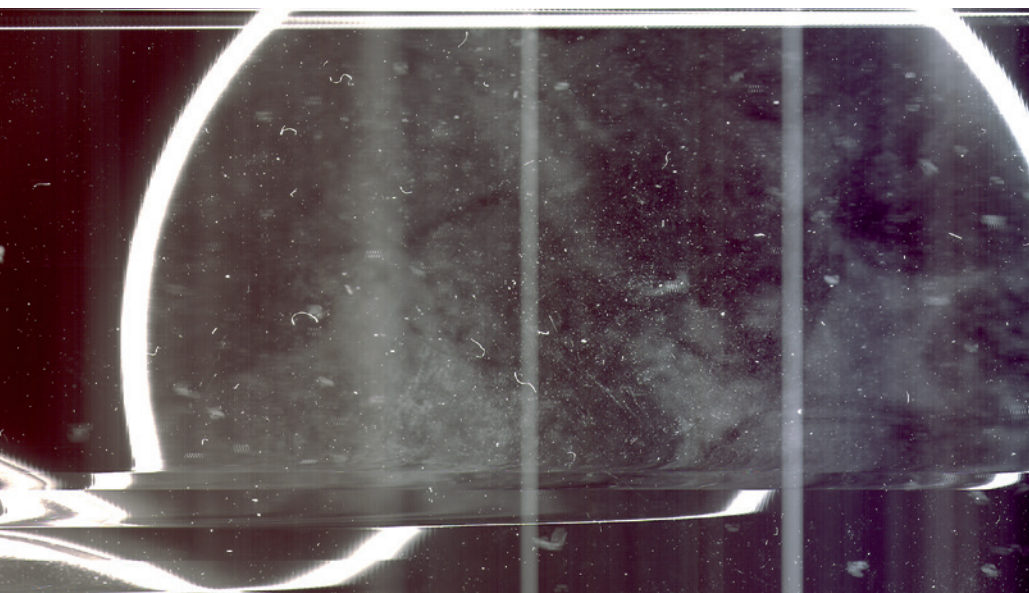

gravitates through  
synaptic gaps

transmitting the mute corrective  
of unmoveable queued-up lightning.

# I

The title of this piece  
is numerous  
photons refusing  
the pause that exposes  
poses to keep.

## II

Syntax sex-syncs  
in and out context:

this ingenious whoring  
with heir-world appearance  
populates sequence

of consequence askance  
or choreographs habit to radically

re-dance.

### III

Thought clutches  
its crafted crutch

(a nub worn  
from leaning on eons)

parades archaicly  
reciting the highlights

from pages of outtakes  
mistakenly gauging

engagement's charade.
